DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In Claim 37, please delete the current claim, and replace it with the following:

A sonic receiver sleeve comprising:

a first hollow metallic cylinder,

a first supporting ring coaxial with and attached to the first hollow metallic cylinder;

a second supporting ring coaxial with and spaced axially from the first supporting ring; and

a second hollow cylinder sandwiched between the first and second supporting rings, and comprising an acoustic impedance matched to an acoustic impedance of a borehole fluid,

wherein the sonic receiver sleeve comprises zones having different acoustic impedance and is configured to encase sonic receivers of a sonic logging tool to isolate the sonic receivers from borehole environments.

Application/Control Number: 10/772,634 Page 3

Art Unit: 2837

Election/Restrictions

2. Claim 16 allowable. The restriction requirement, as set forth in the Office action mailed on 7/12/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 17-20, directed to a second embodiment no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

- 3. Claims 1-47 are allowed.
- 4. The following is an examiner's statement of reasons for allowance:
- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action, and further comprising the limitations of (With respect to claim 1) an outer sleeve

Application/Control Number: 10/772,634

Art Unit: 2837

configured to isolate receiving elements and electronics of the acoustic receiver section from borehole environments, the outer sleeve having alternating zones of high and low acoustic impedance, (With respect to claim 22) an outer sleeve covering the plurality of spaced mass blocks and sonic receivers to isolate the mass blocks and sonic receivers from borehole environments, the outer sleeve comprising a first zone comprising an acoustic impedance at least twice as high as a second zone, (With respect to claim 37) wherein the sonic receiver sleeve comprises zones having different acoustic impedance and is configured to encase sonic receivers of a sonic logging tool to isolate the sonic receivers from borehole environments, (With respect to claim 42) a plurality of axially discontinuous, circumferentially continuous acoustic impedance zones encasing the plurality of spaced receiver blocks and acoustic receivers to isolate the receiver blocks and acoustic receivers from borehole environments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeremy Luks whose telephone number is (571) 272-

Application/Control Number: 10/772,634 Page 5
